**WEEK OF COMPASSION OFFERING - FEBRUARY 19<sup>TH</sup>**

**"Just as you did it to one of the least of these who are members of my family, you did it to me." (Matthew 25:40)**

God is most tangibly present in this world where people hunger, thirst, lack adequate clothing and shelter, and are sick or imprisoned. Christ claims as family members people who suffer.

Christ is so present in them that when you feed the hungry, care for the sick, welcome the stranger – you feed, and care for, and welcome Christ. When you give through Week of Compassion to those who suffer from natural disasters, war, or systemic poverty, you let them know: **YOU ARE HERE!**

**SOUPERBOWL OF CARING**

The youth stood at the exits of the sanctuary this past Sunday and collected money for Souperbowl of Caring. The money collected will be going directly to the WADI Food Pantry. When donating your money, you could vote for Falcons, Patriots or the television commercials. The results are: Falcons \$104.95; Patriots \$33.12; TV Commercial \$138.31. A grand total of: \$276.36!

**9<sup>TH</sup> ANNUAL SICPC DINNER**

The Southeastern Illinois Centers for Pastoral Counseling will be having their annual fundraiser dinner at the church on Sunday, February 26<sup>th</sup> from 11:30 am – 1:00 pm.

## **February 2017: Disconnect to Connect**

By [William O'Brien](#) on January 06, 2017

*How good and pleasant it is when God's people live together in unity! Psalm 133:1*

I had the misfortune of misplacing my phone on a microbus. This is by no means an unheard of situation in the chaotic world of Cairo public transportation. After a few days of mourning my pocket-sized computer, the silver linings surpassed the size of the storm cloud quickly.

The obvious challenges did not surprise me. Communicating with friends and colleagues in Egypt, communicating with friends and family in other countries, social media, taking pictures, and checking the weather were all slightly more challenging, an annoyance. I had not realized how dependent I had become on my phone for getting directions, meeting my friends, and finding my socks when the power goes out in my apartment. Each of these obstacles required greater planning, excepting the last one which required more stumbling around in the dark trying to get the curtains open.

Planning required me to set aside time for activities and allowed me to be fully present in those activities. I was able to devote time to creating and fostering friendships with my coworkers, neighbors, and fellow Arabic students. This intentional communication went beyond people in Egypt. While I wasn't able to talk to my friends and family outside of Egypt as much, I found myself more invested in the conversations I was able to have.

In the eight years since I began using a cell phone, I have never been more "disconnected" from the world around me according to modern technological definitions. However, in those same eight years I have never felt as present and immersed in what I'm doing. Now having a replacement phone, I will have to work to maintain the level of intention and focus that I have benefited from during this time. Luckily for me it has a very short battery life.
